**Acquest International Serves as Financial Advisor on
Latest Acquisition by Clean Earth Inc.**

New York, NY, June 2, 2016 -- Acquest International, L.P., a New York based M&A firm, has served as exclusive financial advisor to Clean Earth, Inc.'s ("Clean Earth"), acquisition of EWS Alabama, Inc. ("EWS").

Headquartered in Glencoe, Alabama, EWS utilizes advanced technologies to provide a wide range of hazardous and non-hazardous waste management services to approximately 250 customers from its company-owned, 65,000 square foot fully permitted hazardous waste RCRA Part B facility. For the trailing twelve months ended April 30, 2016, EWS reported net revenue of approximately \$12 million. Terms of the transaction were not disclosed.

Chris Dods, CEO of Clean Earth, based in Hatboro, PA, said "Since 1996, EWS has been a leader in providing waste management services. Our combined geographic footprint will open new markets for Clean Earth, expand our customer base and enhance our growth prospects. In addition, EWS's regulatory permits and extensive processing capabilities will enable us to recycle carbon black, utilize fuel blending, process medical waste and recycle new forms of non-hazardous waste."

Pauli Overdorff, Managing Director of Acquest, said "Acquest served as the advisor to AES Environmental when it was acquired by Clean Earth in 2014, in addition to serving as advisor to Clean Earth on its acquisition of EWS Alabama that was just announced. These transactions underscore Acquest's versatility advising both sellers and buyers in the environmental services industry."

Acquest and Ms. Overdorff have considerable experience in the hazardous waste, environmental and industrial services industry. Ms. Overdorff previously was Chairman and owner of First Response, an environmental and industrial services company in Nashville, TN.

Acquest International L.P. is a New York-based independent investment banking firm serving lower and middle market companies with enterprise values typically in the range of \$20 million to \$100 million.
