**Acquest International Serves as Financial Advisor on Latest
Acquisition by Unitek Global Services Inc.**

New York, NY, August 20, 2018--Acquest International, L.P., a New York based M&A firm, has served as exclusive financial advisor to Unitek Global Services Inc.'s acquisition of Graycliff Enterprises, Inc.

Headquartered in Greensboro, North Carolina, Graycliff provides construction and engineering services to the telecommunications, cable and utility services in North Carolina, South Carolina and Georgia. A Graycliff subsidiary, Hutchins Telecom, LLC ("Hutchins") also serves the Southeast, including Tennessee and Kentucky. Graycliff and Hutchins, with diverse construction and installation capabilities, are equipped to act as sole contractor in the placement of coax, copper and fiber cable, in aerial or underground deployments. This includes power supply installation, fiber splicing, system sweep and proof of performance, plus aerial or underground subscriber drop installations. Additionally, Hutchins provides water and sewer projects for municipalities in Missouri. Graycliff also offers consultant and design services for developers, associations, government entities and telecom providers.

Terms of the transaction were not disclosed.

Dan Yannantuono, President and CEO of Unitek, based in King of Prussia, PA, said "Since 2003, Graycliff has been a leader in the Southeast providing telecom construction services. This acquisition, combined with our 2017 purchase of GW Communications, LLC, headquartered in Coppell TX, further contributes to our expansion of offerings around fiber deployment. With the acquisition of Graycliff, Unitek Global Services solidifies its geographic footprint in the South, including states in the "top 10" for population growth in the past two years according to the U.S. Census Bureau.

“Acquest has considerable telecommunications industry experience and expertise,” said Pauli Overdorff, Managing Director of Acquest International, L.P.

“This is the third industry transaction that Acquest has completed in the past three years. Acquest has served both buyers and sellers in the telecommunication industry, underscoring our versatility in this highly regulated sector,” she said.
